

# MAGIC MIST EZ-VAPORIZER KIT

## User's Manual

### Different Parts:

### Clearomizer Specification:

1. Liquid volume: 2.4ml
2. Resistance: 2.0-2.4 ohms
3. Compatible with the Magic Mist EZ Vaporizer kit battery

### Caution:

The best way to enjoy this clearomizer is to hold it horizontally at about 15-degree angle, battery attachment end facing down (as shown in picture above). Avoid inhaling more than 10 times continuously; otherwise burnt taste may be experienced.

### Features:

- Revolutionary "Twist & Click" technology
- Button free inhale activated
- Easily charges with any Micro USB Charger (Android Cell Phone Charger)
- Super light weight
- Made with USP Food Grade plastic parts
- Full charge lasts up to 24 hours

### Contents

- 2 Automatic EZ-FIT Vaporizer batteries (Choice of Black or Chrome)
- 2 Disposable EZ-FIT Clearomizers ( 2.0ml capacity)
- 1 USB/Micro USB + 1 Wall Charger
- 1 Zipper Bag to carry all the contents

### Important tips:

1. The EZ-FIT clearomizer should never leak from the bottom, as it is a sealed unit. However, it can leak from the top if set upside down or on an angle greater than horizontal. Keep this in mind when putting your e-cigarette in your pocket or purse. Always put it in a way so that the mouthpiece is facing up.
2. Most people find the most effective way to vape is to take slower and longer draws than you would with a tobacco cigarette.

### EZ-Vaporizer Kit Battery Specification:

1. Working Voltage: 3.5V (loaded)-3.7V(Unloaded)
2. Capacity : 650mah
3. LED: Red (charging) / Green (charged)
4. Charging Time: 3 hours

### Charging the Battery:

1. Insert the micro-USB end of charging cable into the USB charging port of the battery and the other end into the USB port on the computer or a wall adapter
2. The indicator light will be Red while the battery is charging and will turn Green once the battery is fully charged

### Warning

Electronic Cigarettes are intended for use by persons of legal smoking age, not by non-smokers or by children, women who are pregnant or breastfeeding, or persons with or at risk of heart disease, high blood pressure, hypertension, diabetes, or taking medicine for depression or asthma. Consult a physician if you experience nicotine misuse symptoms such as nausea, vomiting, dizziness, diarrhea, weakness and rapid heart-beat or hypertension.
